

Are you looking to improve productivity, reduce downtime and increase your converting capabilities?

Join us April 23-25, 2019
for our next Delta ModTech
Advanced Training Session

Beyond the basics... learning to use your machine to its full potential

Purpose: The purpose of this class is to offer advanced converting instruction that focuses on process optimization and machine efficiency.

Date: April 23-25, 2019

Times: Tuesday – Thursday 8:30 am – 5:00 pm

Attendees: The class may be applicable for machine operators, engineering support personnel, job estimators, and process designers.

Class Format: Delta ModTech Advanced Converting is held at our facility in Minneapolis, MN and runs for 3 days. It incorporates a combination of classroom instruction and actual machine operation. All sessions will rely on the experience of the trainer(s) and the participation of the students.

Subject Matter: Delta ModTech experienced engineers and project coordinators will present advanced training on rotary modules, registration setup, registration sensors, servo-driven accumulators, island placement, spindles, tension, printing/coating, seal beds, lasers, conveyors, reject systems, vision systems, advanced process technologies and additional process modules.

Cost: \$1250.00

Deliverables: Each participant will receive a full course training manual and a certificate of completion.

Space is limited and it fills up fast: To reserve a space please click on the registration link below. To have your name added to a future invite list please call Amy at 800-279-3358 or 763-755-7744 or email aelfering@deltamodtech.com.
